

## TC HELICON VoiceWorks Plus

Cod.Art. : 6842

Produttore : TC Helicon

### EFFETTO PER VOCE

VoiceWorksPlus has all of the features you need to make your vocals shine brighter. It continues on from the success of its predecessor, VoiceWorks, with an updated feature list including 4th generation TC-Helicon harmony technology, Voice Modeling™, and the Transducer and iMod (micromod) blocks from VoicePro.

The quiet Burr Brown-based mic preamp, transparent pitch correction, TC Electronic reverb, delay and dynamics algorithms from VoiceWorks round out its capabilities. Whether you're playing live gigs with a MIDI sequencer for backup or recording songs in your studio, VoiceWorksPlus offers high quality vocal processing options and advancements allowing you to realize the perfect vocal sound you're looking for.
