

Model PC-1e (Volume controller)

Thank you very much for purchasing the Fostex PC-1e.

The PC-1e is a volume controller which allows you to control the left and right monitor levels simultaneously when you monitor the computer audio output through a pair of powered monitor speakers such as the Fostex PM0.4n.

Refer to the connection example below and use it correctly.

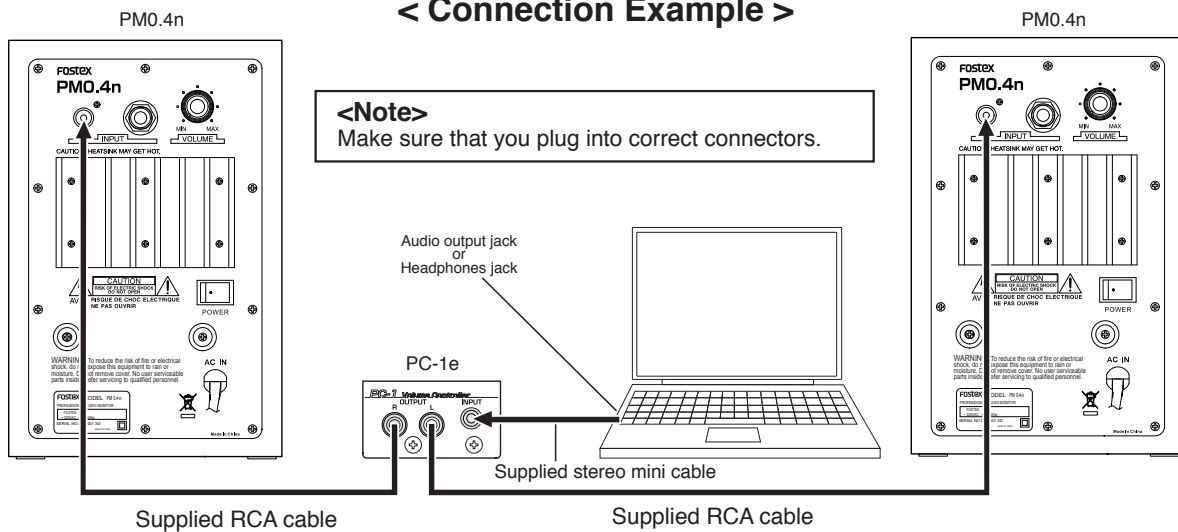

Owner's manual

<Important notes>

- * When you connect the PC-1e between a computer and powered monitor speakers, turn down the volume of the powered monitor speakers and the PC-1e.
- * When you use the powered monitor speakers, do not raise the volume excessively. Loud sounds may cause hearing loss.
